

Net Metering

With solar energy, you can generate electricity at your premises and extra or total solar electricity can be sold to the grid.

NEPRA defines the process under Net Metering, where an existing unidirectional meter is replaced with a bi-directional meter. This way electricity is clocked to and from the premises to incur net profit/metering.

The process is much similar to industrial large scale plants where large scale power producers feed electricity to the central grid of the country. It must be noted that some extra safety requirements are made at the premises to ensure the safety of your family. This way you are saving your electrical bills and contributing to overall savings from the grid.

If you do not proceed with net metering then solar energy will only provide electricity to your power. Enjoy being part of the solar family.

Product, Features & Benefits

- Enjoy 18% mark-up for up to 36 months.
- Choose from the widest range of tenure from 3 to 36 months.
- For further details, please call UBL Contact Center at 111-825-888.

Other Important Information

- To avail the facility, LIP and Credit Card Terms and Conditions are applicable. Please refer to the latest Schedule of Charges for applicable fees.
- Only the card member or an authorized person(s) may receive the product.
- Current and valid CNIC copy of Card member or authorized person(s) will be required as proof of identification at the time of delivery.
- Order for product will only be accepted after a technical evaluation of site is completed by Intelli Energie Team.
- Delivery of the product will be subject to availability of stock and the price of products are subject to change. However this will not apply to confirmed LIP bookings. Home delivery may be availed all across Pakistan at an extra cost.
- Annual Maintenance Contract (AMC) for the system is suggested for a minimum period of one year through Intelli Energie. AMC includes monthly site visit for a system performance evaluation. This will be provided at an extra cost.
- Designs and specifications of the product may vary.
- Installment calculations are based on the diminishing balance method.
- UBL will not be responsible for the quality of product/services.
- In addition to the charges above, all applicable Government taxes, duties and levies will also be charged.
- Net metering services can be availed separately by the customer. For such services please call Intelli Energie.

Inverter 3kW

Product Features & Benefits

- Solution 1** - 3kW (2560W Panels with 1 Hour Backup)
- Solution 2** - 3kW (4480W Panels with 1 Hour Backup)
- Solution 3** - 3kW (2560W Panels with 1.5 Hour Backup)
- Solution 4** - 3kW (4480W Panels with 1.5 Hour Backup)

Inverter 3kW –Price Starting at PKR 519,908

Model	Price	3 Months	6 Months	12 Months	18 Months	24 Months	30 Months	36 Months
Solution 1	519,908	178,527	91,257	47,665	33,173	25,956	21,649	18,796
Solution 2	685,609	235,427	120,342	62,857	43,746	34,228	28,548	24,786
Solution 3	550,160	188,915	96,567	50,439	35,103	27,466	22,908	19,890
Solution 4	738,298	253,519	129,590	67,687	47,108	36,859	30,742	26,691

Inverter 5kW

Product Features & Benefits

- Solution 1** - 5kW (2560W Panels with 1 Hour Backup)
- Solution 2** - 5kW (3840W Panels with 1 Hour Backup)
- Solution 3** - 5kW (7040W Panels with 1 Hour Backup)

Inverter 5kW –Price Starting at PKR 666,231

Model	Price	3 Months	6 Months	12 Months	18 Months	24 Months	30 Months	36 Months
Solution 1	666,231	228,772	116,940	61,080	42,509	33,261	27,741	24,086
Solution 2	775,228	266,200	136,072	71,073	49,464	38,703	32,280	28,026
Solution 3	1,113,689	382,422	195,480	102,103	71,060	55,600	46,373	40,263

Inverter 10kW

Product Features & Benefits

- Solution 1** - 10kW (4480W Panels with 1 Hour Backup)
- Solution 2** - 10kW (5760W Panels with 1 Hour Backup)
- Solution 3** - 10kW (11520W Panels with 1 Hour Backup)

Inverter 10kW –Price Starting at PKR 1,117,458

Model	Price	3 Months	6 Months	12 Months	18 Months	24 Months	30 Months	36 Months
Solution 1	1,117,458	383,716	196,142	102,449	71,300	55,788	46,530	40,399
Solution 2	1,252,842	430,205	219,905	114,861	79,939	62,547	52,167	45,293
Solution 3	1,772,692	608,712	311,152	162,520	113,108	88,500	73,813	64,087

Key Note:

- More load can be put on the system e.g. for a **3kW Solution** one can run an Inverter **AC of 1.5 Ton**. This is managed through:
 - Load management by not using other appliances as mentioned in the Residential Solutions table.
 - Additional load supported by other sources of power i.e. Grid and Batteries. This approach can be adopted for **5kW** and **10kW** solutions as well.
- Designated load for 3kW, 5kW and 10kW is about 2.42kW, 3.78kW and 7.1kW respectively. This is based on the standard configurations. However, the system can take maximum load as up to the size of the Inverter.

Intelli Energie

Intelli Energie is a turnkey solar solutions provider, offering smart solar storage systems for centralized and decentralized energy supply. Our highly-qualified technical and sales teams are trained by our German suppliers and engineers, thereby providing our customers with the best experience. Intelli Energie has entered the residential market after mainly focusing on the Industrial and Commercial Sector.

- ENERGY CONSULTATION
- SITE VISIT
- ENERGY AUDIT
- CUSTOMIZED DESIGN
- INSTALLATION & COMMISSIONING OF SYSTEM
- REGULAR CHECKS
- MAINTENANCE

Note:

Point 1-3 are free for **UBL** customers

Residential Solutions

10 KW Large Home	30	10	3	3	2	2	4	1
5 KW Medium Home	25	8	2	1	1	1	2	0
3 KW Small Home	20	6	1	1	1	1	2	0

Note:

- The above mentioned table is the Design Load for Solar Solution for the Inverter Capacity mentioned.
- More / additional appliances like Desktops, Laptops, Automatic Washing Machine and Tubelights can also be further added with increase in solar panels / load management.

Intelli Energie Suppliers

- Panels: Grade A panels from Tier 1 companies.
- Inverters: Grade A inverters from Tier 1 companies.
- Batteries: Top notch reputable brands.
